Installation Kits

These kits were designed to include all the necessary components for a typical installation depending on the amount of suppressant required. All kits contain a Piston Accumulator (PA), detection cylinder, detection tubing, nozzles, a variety of hose lengths, stainless steel tubing, fittings, clamps, brackets and hardware. Dual PA kits are shipped unpressurized WITHOUT suppressant.

Piston Accumulators

FMNA offers two different series of Piston Accumulators, the 156 series and the 178 series. The series refers to the outermost diameter of the PA. There are many options available for the PAs, please refer to FM-10XX-XXXX-XXXX and FM-12XX-XXXX-XXXX for PA part numbering guidelines. Below is a listing of the most popular PA Part numbers. If you do not see your PA listed, please contact FMNA.

Piston Accumulators (PA) 156 Series 4 Liter. Length = 19"			
Part Number	Description	Price	Pictures For Reference Only
FM-1042-3SL2-5100	PA/SINGLE/4.0 LITER/HYDRO-PNEUMATIC SEALED VALVE/2-PIN PRESS. SWITCH/STRAIGHT GAUGE/L-FITTING/ MAGNET SAFETY SWITCH/FLOURINE FREE/FILLED/NO P-MARK/NOT UL LABELED	\$3,286.26	

Piston Accumulators (PA) 156 Series 6.5 Liter. Length = 28.5"
